STATEMENT OF CONTINUED SUPPORT FOR THE UN GLOBAL COMPACT

I am pleased to reaffirm that the Norwegian Golf Federation remains committed to the Ten Principles of the United Nations Global Compact in the areas of human rights, labor, environment, and anti-corruption.

We continue to integrate these principles into our strategies, culture, and day-to-day operations, and to promote responsible business practices within the sport of golf in Norway.

As part of our commitment, we actively support sustainable development and corporate responsibility, and we engage with relevant stakeholders to advance positive change in our sector. We aim to contribute to a more sustainable and inclusive society by:

- *Promoting environmental stewardship and responsible land use in golf course management.*
- *Respecting human rights and ensuring safe and fair labor conditions within our organization and broader golf community.*
- *Fostering transparency and integrity in all our activities.*
- *Engaging with the UN Global Compact and supporting its mission through collaboration, knowledge sharing, and public accountability.*

We recognize that transparency is essential, and we are therefore pleased to submit our annual Communication on Progress to demonstrate the actions we have taken to implement the Ten Principles and contribute to the Sustainable Development Goals.

We look forward to continuing our active engagement with the UN Global Compact and to contributing to a more sustainable future.

Sincerely,

Øyvind Krag Ingul

President // Norwegian Golf Federation
